OPEN ACCESS & CADMUS

20 YEARS

CADMUS
EUI Research Repository

WHAT IS OPEN ACCESS?

An Open Access (OA) publication or dataset is immediately and freely available online, to read, download, copy, print, disseminate or search. As a publicly-funded institute, our aim is to increase the proportion of research publications and datasets in Open Access. The EUI Open Access Policy encourages its members to facilitate the dissemination of their published research by depositing it with Cadmus.

CADMUS

The EUI Research Repository, Cadmus, registers EUI members' academic publications and datasets produced during their time at the Institute and those based on research carried out here:

- 29,000 publication records
- 13,000 Open Access publications
- 3,381 theses of which 1,411 Open Access
- Video tutorials bit.ly/cadmusplay

PUBLISH OPEN ACCESS

The EUI has special agreements to allow its members to make their articles available in Open Access at no cost (waived APCs) with Cambridge University Press, Springer, Wiley and Elsevier.
